FRUIT IN ARIZONA

The Town of Thatcher Will Yield a Good Crop.

Thatcher, Aug. 30.—Thatcher is still alive, so much alive that we have hardly time to tell our readers "howdy."

An abundant harvest has kept everybody busy. Threshing machines are still humming. The three large mills in the valley are fairly groaning with the weight of cereals stored in their granaries. The fruit season is now on, and while the quantity has been reduced the quality is largely making up for it, some of the choicest peaches now on the market ever produced in any country. Grapes have been plentiful and there will be a good quantity of apples and pears. Our early crop of potatoes has been exhausted for some time. We have been potato hungry. California potatoes will serve us now until our next crop comes in. Sweet potatoes are just ripening and the crop will be large. Melons have been very plentiful, never so like the like, as though everybody has a patch and there are some five acre fields of them.

Mr. Nichols here in Thatcher, who makes a specialty of truck gardening, invited Father Claidge, President Wm. D. Johnson and others of us to help him dig out melon seeds from the selected few of the choicest variety. The little party did its best, but could not do full justice to the situation. The first watermelon we laid open on the table was a cross between the "Judy Macintosh" and the "Pistie." It measured round the center 25 inches, around from end to end 55 inches, was 22 inches long and weighed 48 pounds. It was delicious. No. 2 was the "improved Cuban queen"; it measured 12 inches high as it lay on the table, 19 inches long, 42 inches around the middle and 52 inches around the end, and weighed 69 pounds—not so delicious a variety to eat, but a better keeper, and a melon of such strong exterior it stands transportation well. There was the improved Georgia "Hattieshake" and other varieties. We finished up

with a very choice line of cantaloupes. Though the party was small and the melons large, practice makes perfect, continuous sating of melons makes capacity, the job was well taken care of.

For over a month now we have had a rainy season; the entire country is covered with vegetation. The desert and hills are covered with beautiful grass and flowers. Preparations are being made to cut prairie hay. While it is a fact that our canals have been very much impaired by the flood waters, the wet season has done much good.

The health of our people generally is good and we have every reason to rejoice in the blessings of the Lord.

THE ACADEMY.
Our academy building is now undergoing a thorough renovating and many important changes are being made preparatory to beginning our school the early part of September. The board purchased a large stone building near by, which is thoroughly equipped for our business college. Prof. Emil Macer, president of the school, spent three months of his vacation in Chicago, under the able tuition of Prof. Parker of the university, and we believe he is thoroughly up on all the latest ideas of training. Prof. J. R. Burnham of our commercial school has not returned yet from the east; he has been putting in his vacation in the advanced schools of the east. Prof. Nash of our normal department spent two months in the Arizona university conchering up some special lines, more particularly surveying. He is now leading a large expedition to the Graham mountains on a government survey. Professor Dalbey has taken physical culture during the summer, on the farm and ranch. Other members of the faculty have not been idle. With the improved condition of our school rooms, our competent faculty and good feeling of the people generally towards our academy, we have every reason to believe the coming season will be the best we have ever known.—Special Correspondence Deseret (Salt Lake) News.

Ever figure up how much it costs a man to fail in love?

RAILROAD TO TOMBSTONE

Representative of Phelps Dodge & Co.
Say It Will Be Built.

Chief Engineer Wambaugh of the Phelps Dodge railroad interests, was in Tombstone a few days ago inspecting the work of his surveyors, and in an interview with a reporter for The Prospector, he said:

"There is no question but what a road through Tombstone will be built by the company. The matter has been gone over with pretty thoroughly and orders given for the survey. The branch will be run from the main S. W. railroad line near College Park pass along the valley to Gila, Tombstone and connect at Fairbank. The line will make a cut in the mileage and give us a good advantage for business."

Asked as to mileage saved by the shorter haul, Mr. Wambaugh gave an illustration, which shows how a material saving is made on railroad estimates. "By the old route, the S. W. railroad from El Paso to Bisbee, the distance or haul is cut eighty-five miles shorter than by the present circuitous route, while to the company's mines at Nacozari nearly 120 miles are saved. This freight charge for mileage saved on the company's tonnage alone is a big item. By building through Tombstone an approximate saving in mileage is also made and furnishes an advantage in making freight rates and securing business."

Of the survey in Tombstone, Mr. Wambaugh states a comparatively easy grade is had from College Park to the Tombstone hills, but to maintain a similar percentage of grade to Fairbanks and obviating heavy pull-ups, the line of the survey is comparatively little difficulty will be experienced, and encourages the hope that all obstacles can be overcome at but little extra expense.

RING WORM AND DANDRUFF.

They are Each Caused by a Pesticiferous Germ.

Ring worm and dandruff are something similar in their origin; each is caused by a parasite. The germ that causes dandruff digs to the roots of the hair, and saps the vitality, causing falling hair, and, finally, baldness, and to cure dandruff it is necessary to kill the germ. There has been no hair preparation that would do this until the discovery of Newbery's Herpicide, which positively kills the germ, and keeps itching instantly and makes hair glossy and soft as silk. At all drug stores. Take no substitutes. There is nothing "just as good."

VALUE OF GOOD MANNERS.

Their Efficiency in Saving the Life of a Certain Tall Rebel.

Andrew Lang, in Longman's, tells a story which "proves the profitable character of good manners," averring that he had the tale from a descendant of the gentleman who had the manners. Mr. M. of ——— was out in the Forty-five. He was taken, and was being brought to the Tower with Kilmarlock and Balmerino. A block stopped the sad cortege, and a lady looking from a window, cried, "You tall rebel!" (Mr. M. was 6 feet 4) "You will soon be shivering by a head!" "Does that give you pleasure, madame?" said Mr. M. "Yes, it does."

"Then, madame," said Mr. M., taking off his hat and making a low bow, "I do not die in vain."

Lady ——— was moved. She made interest for Mr. M. There exists a paper in the hand of George H. to this effect: "Let Lady ——— (the name is obliterated) have access to her tall rebel and be damned to her!"

The royal clemency was extended to Mr. M. I saw his pardon, beautifully engrossed with a decorative border, and framed on the wall of his descendant's study. It is safe to add that practically the whole county of Ross, and also the Earl of Sutherland, petitioned for the life of the courteous Mr. M. His name was Roderick Macauloch, of Glasfuirish.

ANOTHER BAD MAN.

Mrs. J. E. Mortuagh, a dream of a girl looking young woman, was before Justice Moore yesterday with a complaint that her husband had tried to shoot her. The husband was found guilty of carrying a revolver and was given a \$50 fine or 30 days imprisonment. He is at present in jail. Mrs. Mortuagh was heard screaming in her room. A woman rushed in and found that Mr. Mortuagh had a revolver leveled on his wife. Both women ran screaming from the house. Mr. Mortuagh went to answer to this charge after he gets through with his present sentence.—Courier.

A CERTAIN CURE FOR DYSENTERY AND DIARRHOEA.

"Some years ago I was one of a party that intended taking a long bicycle trip," says F. L. Taylor, of New Albany, Bradford County, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward of the Greenville Messenger suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy and this time one dose cured me." Sold by Elvey & Hulet.

Do you think you have a right to your opinion? If you do, just remark in the company of warblers that you do not care to hear women sing.

Josh Westhafer, of Leogootee, Ind., is a poor man, but he says he would not be without Chamberlain's Pain Balm if it cost five dollars a bottle. It saved him from being a cripple. No external application is equal to this liniment for stiff and swollen joints, contracted muscles, stiff neck, sprains and rheumatic and muscular pains. It has also cured numerous cases of partial paralysis. It is for sale by Elvey & Hulet.

NOTICE FOR PUBLICATION.

Homestead Entry No. 2275
Department of the Interior,
Land Office at Tucson, Arizona,
August 10, 1901.
Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Clerk of the District Court at Phoenix, Arizona, on Monday, September 23, 1901, viz: William R. PROPOSALS FOR BUILDING MATERIALS.—DEPARTMENT OF THE INTERIOR, U. S. Indian Service, Sacaton, Ariz., Aug. 21, 1901.—SEALED PROPOSALS, indorsed "Proposals for Building Materials," and addressed to the undersigned, will be received at this office until two o'clock p. m. of Sept. 22nd, 1901, for furnishing and delivering the materials (except bricks) required in the construction and completion at this agency of a brick dispensary and physician's residence in accordance with the plans on file in this office. A complete description of the materials required may be examined at the office of the "Arizona Republican," Phoenix, Ariz., and at this agency. For further information, apply to Edward Hadley, U. S. Indian Agent, Sacaton, Arizona, ELWOOD HADLEY, U. S. Indian Agent, Sacaton, Ariz.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by the chairman of the board of trustees of the Reform School for Juvenile Offenders, up to September 10th, 1901, at 2 o'clock p. m., for the construction of a building to be known as the Reform School for Juvenile Offenders at Tucson, Arizona, as provided for by an act of the territorial legislature approved March 21st, 1901. Plans and specifications for the building to be constructed, together with the contract to be executed for the construction thereof; sections of the act above referred to in reference to the raising of funds for the payment of the construction and all other essential information are on file for inspection at the offices of Messrs. Trost & Rust, Architects, A. O. U. W. building, Tucson, Arizona. Forms for bids may be had upon application to the architects above named, and all bids submitted must be upon such forms. Bids will be opened at the office of the board of trustees at No. — Congress street, Tucson, Arizona, on Tuesday, September 10, A. D., 1901, at 2 o'clock p. m. All bids submitted, to receive consideration, must be accompanied by a certified check for at least five per cent (5 per cent) of the total amount of the bid as a guarantee that the bidder will enter into contract within three (3) days after being awarded the same. The board of trustees reserves the right to reject any and all bids submitted.

C. F. SCHUMACHER, Chairman.

H. GERWEIN, Vice Chairman.

H. BUEHMAN, Clerk.
